BUYERS OF OLD BOOKS. A Second-Hand Book Desier Explains

the day," said the proprietor of a secand-hand book store to a reporter. There is a prevailing idea that most to us by destitute people who take this means of raising a little cash, but that is true in a limited number of cases only. It is true that people whose forunes have suddenly changed for the worse are ready to sell their books if they have many of them. Many books are brought to us by a class of people who have no desire to keep them after they have once been read. The money which they get for them is spent for others, which in turn are sold to us-This system accounts for many of the

"So many books are now printed and sold in pamphiet form, however, that this is not done so often as formerly Only those books which are sold in bindings by the publishers and are not published in pamphlet form reach us in this way.

libraries which are sold by the executors of the wills of deceased persons to satisfy the claims of creditors, or libraries of men who are no longer able to keep them. So common has this become that those who have the disposition of the books in charge summon the book men and request them to make estimates unon the stock the same as contractors hid for work. The highest bidder gets the lot. The value of a library is not regulated by the original cost of the books which it contains, nor the conditions of the covers and the general state of preservation, but by the nature of readng matter contained.
